

What Is Claimed Is:

1 1. An inflatable product, including:
2 a chamber;
3 an air pump for inflating the chamber, the air pump
4 having an air intake and an air outlet, wherein:
5 the air intake is connected to the outside of the
6 chamber and the air outlet is connected to the inside of the
7 chamber when the air pump is moved to first position; and
8 the air intake is connected to the inside of the chamber
9 and the air outlet is connected to the outside of the chamber
10 when the air pump is moved to second position.

1 2. An inflatable product as claimed in claim 1, wherein
2 the air pump further has a substantially rolling-pin-shaped
3 housing, a fan and motor provided in the housing.

1 3. An inflatable product as claimed in claim 2, wherein
2 the substantially rolling-pin-shaped housing has two ends,
3 and the air intake and the air outlet are respectively
4 provided on the ends of the housing.

1 4. An inflatable product as claimed in claim 1, further
2 including a piping system connected between the air intake of
3 the air pump and the outside of the chamber when the air pump
4 is moved to the first position, and connected between the air
5 outlet of the air pump and the outside of the chamber when
6 the air pump is moved to the second position.
